BATTERY BACKUP

Tesla Powerwall Solar Energy Storage

Make the most of your solar system's industry-leading performance by pairing it with Tesla's Powerwall solar energy storage. This simple but powerful solution helps you keep your lights on during a power outage, manage your energy use, and maximize your use of solar.

Get seamless backup power during an outage and the freedom to manage your energy as you see fit. Tesla storage solutions integrate seamlessly with your solar system to provide a one-stop solution for your household energy needs.

MONITOR YOUR BATTERY

With the Tesla mobile app, you can:

- See your battery usage and performance, solar production, and energy consumption
- Utilize several different modes to prioritize:
 - Backup Reserve
 - Self-Powered
 - Time-Based Control
 - Advanced Modes

Tesla Powerwall and the Tesla logo and related product and service names are trademarks of Tesla, of which Blue Raven Solar has no affiliation.

Estimated Battery Backup Duration

Estimated Battery + PV Backup Duration

Battery Storage Capacity (kWh)

Nominal Power Output (kW)

Warranty

10 years

Estimated Battery Backup Duration is based on typical loads to be backed up, which may include electrical outlets, televisions, computers, refrigerators, and interior lighting. Actual duration will vary based on the actual loads/appliances backed up, electricity usage, solar production, and other conditions identified in the manufacturer data sheet. The actual loads to be backed up specific to your house will be selected during the final design of your Battery – whole home backup is never guaranteed. Blue Raven Solar does not warranty or guarantee backup duration or performance. Some appliances may not be compatible with storage system.
