BATTERY BACKUP

Tesla Powerwall Solar Energy Storage

Make the most of your solar system's industry-leading performance by pairing it with Tesla's Powerwall solar energy storage. This simple but powerful solution helps you keep your lights on during a power outage, manage your energy use, and maximize your use of solar.

Get seamless backup power during an outage and the freedom to manage your energy as you see fit. Tesla storage solutions integrate seamlessly with your solar system to provide a one-stop solution for your household energy needs.

MONITOR YOUR BATTERY

With the Tesla mobile app, you can:

- See your battery usage and performance, solar production, and energy consumption
- Utilize several different modes to prioritize:
 - Backup Reserve
 - Self-Powered
 - Time-Based Control
 - Advanced Modes

Tesla Powerwall and the Tesla logo and related product and service names are trademarks of Tesla, of which Blue Raven Solar has no affiliation.

Whole Home Backup Package

Estimated Battery Backup Duration

 22 + hours

Estimated Battery + PV Backup Duration

 72 + hours

Battery Storage Capacity (kWh)

40.5 kWh

Nominal Power Output (kW)

34.5 kW

Warranty

10 years

Estimated Battery Backup Duration is based on typical loads to be backed up, which may include electrical outlets, televisions, computers, refrigerators, and interior lighting. Actual duration will vary based on the actual loads/appliances backed up, electricity usage, solar production, and other conditions identified in the manufacturer data sheet. The actual loads to be backed up specific to your house will be selected during the final design of your Battery – whole home backup is never guaranteed. Blue Raven Solar does not warranty or guarantee backup duration or performance. Some appliances may not be compatible with storage system.

PAYMENT OPTIONS

BLUEPOWER[®]

Exclusively from Blue Raven Solar

HOW IT WORKS

BluePower from Blue Raven Solar is the best way to finance your battery purchase. By leveraging our reputation and purchasing power, Blue Raven Solar has negotiated industry-leading terms that we pass on to our customers. BluePower offers:

- A fixed, low monthly payment to pay for your Battery over time
- An industry-leading interest rate
- The most flexible payment options – no prepayment penalty, optional tax credit paydown, transferability to a new homeowner

By adding a battery to your existing solar with BluePower, you'll keep your payment low, increase the value of your home, and take full advantage of increased energy security!

	Months 0-18	Months 19+
1 Apply all tax credits to financed amount	\$384	\$388
2 Use tax credit for something else	\$384	\$555

If you finance the purchase of your Battery, the payments presented in Option 1 assume you make a voluntary payment equal to your estimated federal and state incentives at month 18 of your loan. You can voluntarily make additional payments to the lender beyond your federal and state tax incentives without penalty. Tax and other government or utility incentives vary as to eligibility, participation, and refundability and are subject to change.

BATTERY STORAGE ASSUMPTIONS

Battery Cost Assumptions

Total Battery Cost	\$42,591
Promotional Discount	\$500
Down Payment	\$0
Total Loan Amount	\$42,091
Est. Federal Tax Incentive	\$12,627
Net System Cost	\$29,464
APR*	7.99%
Loan Term	10 years
Assumed Payment by Month 18	\$12,627

Battery Assumptions

Total Battery Storage Capacity	40.5 kWh
Nominal Power Output	34.5 kW

Solar Assumptions

Existing PV System Size	5.5 kW
-------------------------	--------

Warranties

Tesla Powerwall	10 years
Workmanship	5 years

No Prepayment Penalties to Maximize Savings – If financing, your separate loan agreement may assume a voluntary payment equal to your estimated federal tax incentive. You can voluntarily pay more than this minimum voluntary payment with no prepayment penalties. Talk to your lender for more details.

A downpayment may be required based on total amount financed and your credit score.

*APR subject to rate increase of up to 0.5% if you opt out of ACH payments.
